

LONG DISTANCE VOICE

It's a fact that businesses must communicate with customers and vendors that reside outside of their local calling area. Deltacom simplifies your communications solutions by offering long distance to compliment your local Deltacom services.

Deltacom's Long Distance service can be delivered over a dedicated PRI for customizable combinations of outbound and toll-free services. Switched services are also available for locations that don't require dedicated facilities.

**DELTACOM'S EXTENSIVE SOUTHEAST REACH ENABLES SIMPLE, RELIABLE,
